# Briefing note: Ontario's roadside zoos

## Background

With approximately 50 zoos, wildlife displays, and zoo-type exhibits housing wild animals, many of which can be classified as roadside zoos, **Ontario has the most captive wildlife operations in all of Canada.** This province is the only major jurisdiction that has not yet comprehensively addressed issues related to the keeping of wild animals, whether it is for pets or for zoos. Instead, this responsibility has been downloaded to municipalities, which often lack the expertise and/or resources to deal with captive (and often dangerous) wild animals. Additionally, the current existing regulations that are supposed to safeguard the health and wellbeing of captive wildlife and the public are not working.<sup>1</sup> We would like to see the province take ownership and resolve this longstanding issue.

## Provincial responsibilities

There are two Ontario ministries with authority to regulate the keeping of wild animals.

The Ministry of Natural Resources and Forestry (MNRF) issues licences for keeping certain native wildlife in captivity through regulations under the *Fish and Wildlife Conservation Act*. **Very few conditions are attached to these licences and there are no required minimum qualifications, such as professional training in the humane and safe caretaking of these animals.**

The Ministry of the Solicitor General (SOLGEN) is responsible for the welfare of all captive wildlife (native and exotic) through the *Standards of Care and Administrative Requirements* under the *Provincial Animal Welfare Services (PAWS) Act*. **Animal care provisions are vague and have shown to be unenforceable, and there are no prescribed minimum safety standards.**

To this day, the province has not regulated the keeping or the use of exotic wild animals for display purposes (i.e., zoos). Lions, tigers, monkeys, parrots, snakes, etc., can be kept and displayed in the province without restrictions, unless a municipality has a bylaw preventing this. **Ontario is the only major jurisdiction in Canada that hasn't regulated this issue at provincial level (see attached score card).**

## Impact on Municipalities

- In Ontario, between 1,000 and 2,000 wild animals are currently kept at roadside zoos and tens of thousands more are being kept in private homes.<sup>2</sup> **In many cases, the exact location of these wild and potentially dangerous animals is unknown, presenting a safety concern for neighbours, firefighters, police, by-law enforcement officers, and other first responders.**
- In addition to public safety and animal welfare issues, poorly run facilities can be a community nuisance contributing to odour, noise and other problems, which can result in a decrease in property value of adjacent properties and ultimately impact the municipal tax base.
- Captive wildlife related issues can overburden already stretched municipal services – animal control staff may have to catch escaped animals, find homes for surplus or abandoned animals, and respond to noise and other complaints.
- Retroactively closing facilities or stopping exotic animal owners from bringing their animals into municipalities causes significant pressures on municipal legal staff and other departments, on financial resources, and can lead to significant unrest within communities.
- **Municipalities that have bylaws in place are increasingly facing challenges from unregulated zoo-type facilities and wild animal owners who have sought bylaw exemptions or have attempted to open zoo-type facilities and bring in prohibited wild animal species despite existing bylaws.**

## Resolution

World Animal Protection is asking municipalities to support and adopt the resolution to urge the Ontario government to stop downloading responsibilities to municipalities. Instead, the Ontario government should restrict the possession, breeding, and use of non-native (“exotic”) wild animals and license zoos to support municipalities and guarantee the fair and consistent application of policy for the safety of Ontario’s citizens and the captive wild animal population.

Our campaign has been supported by major municipal associations such as AMO, AMCTO, and MLEOA.

Honourable and Dear Sirs:

**Re: Architectural Conservancy Ontario - Request Provincial Government to Amend  
Deadline of Subsection 27(16), Ontario Heritage Act**

Please be advised the Municipal Council of the Town of Fort Erie at its meeting of March 18, 2024 received and supported correspondence from the Architectural Conservancy Ontario dated February 8, 2024 requesting the Provincial Government to amend Subsection 27(16) of the Ontario Heritage Act by extending the deadline for five years, from January 1, 2025 to January 1, 2030, and passed the following resolution:

**Whereas** subsection 27(16) of the Ontario Heritage Act stipulates that any non-designated heritage property listed on the municipal register of properties as of December 31, 2022 shall be removed from the municipal register on or before January 1, 2025, if the council of the municipality does not give a notice of intention to designate the property under subsection 29(1) of the Ontario Heritage Act on or before January 1, 2025; and

**Whereas** since January 1, 2023, municipal staff and members of the municipal heritage committee in this municipality have been diligently working to: review the municipal heritage register; research the heritage value and interest of listed (non-designated) properties; review and research the heritage value and interest of non-designated properties; contact owners of such properties; determine which properties should potentially be designated in accordance with the provisions of Section 29 of the Ontario Heritage Act; and take all required steps to designate such properties; and

**Whereas** the above-noted work involving 34 listed properties in this municipality is extremely time-consuming and cannot be completed by December 31, 2024 with the limited municipal resources available;

**ARCHITECTURAL  
CONSERVANCY  
ONTARIO**

Premier Ford,

**Re: Looming expiry date for protection of heritage properties listed under the Ontario Heritage Act**

We are writing to express our concerns with a key amendment to the *Ontario Heritage Act*; which your government passed in 2022. Under it, any heritage property listed on a municipal register as of December 31, 2022 shall be removed from the register on January 1, 2025, unless that council has given notice of its intention to designate the property under the Act. Properties that lose listing status cannot be re-listed for another five years.

This change affects some 36,000 listed heritage properties, according to the Ministry of Citizenship and Multiculturalism, in over 100 municipalities across the province. These properties have only limited, short-term (60 day) protection. As ACO warned in December 2022, forcing municipalities to designate all listed properties within two years or drop them from the register was draconian and totally unrealistic. With the expiry date now less than one year away, municipalities, large and small, are scrambling to review their registers and prioritize properties for designation or other protection. The staff/financial cost in research alone is enormous.

Automatically removing listed properties from the registry in less than eleven months will encourage demolition of existing and affordable housing alternatives at a time when we need them the most.

**ACO is asking that Subsection 27(16) of the *Ontario Heritage Act* be amended in the spring session of the Legislature, to extend the deadline in the Act for five years, from January 1, 2025 to January 1, 2030.** This early certainty of an additional five years for implementation would give municipalities the opportunity to better plan, resource and undertake this complex exercise. The 2030 timeline would help municipalities ensure that properties are not "thrown off the list" prematurely and without input from property owners.

ACO believes that property owners should not be forced to choose between designation and nothing at all to recognize the heritage significance of their property. However, this is the choice your government has forced on them. At the very least, owners and municipalities should be given more time to make this choice, and given reasonable notice of this extension.

EB-2023-0261 – Neustadt Community Expansion Project (“Neustadt Project”)  
Response to Environmental Defence (“ED”) Notice of Motion**

---

Enbridge Gas is in receipt of ED’s March 11, 2024 Notice of Motion to review the OEB’s decisions to deny intervenor requests for filing evidence and for holding a technical conference in the four above-noted proceedings (the “Second ED Motion”).<sup>1</sup>

As important context, the Second ED Motion is part of a pattern of repeated attempts by ED to introduce evidence related to non-natural gas alternatives within Natural Gas Expansion Program (“NGEP”)<sup>2</sup> funded project proceedings, adding to the duration and complexity of the regulatory process (with associated costs ultimately borne by natural gas ratepayers) and delaying service to consumers and communities that have expressed interest in (and have been identified by provincial policy and the OEB to receive) natural gas service.

In its crux, ED’s grounds for the Second ED Motion appears to be similar to the recently adjudicated First ED Motion described in footnote 1 (i.e., alleging that the OEB’s decisions were procedurally unfair and in error in refusing to admit proposed intervenor

---

<sup>1</sup> A similar ED Motion for Review (the “**First ED Motion**”) (EB-2023-0313) impacting similar Natural Gas Expansion Program funded project proceedings was filed by ED for the Selwyn Community Expansion Project (EB-2022-0156), the Mohawks of the Bay of Quinte Community Expansion Project (EB-2022-0248), and the Hidden Valley Community Expansion Project (EB-2022-0249). The OEB denied the First ED Motion in a decision dated December 13, 2023 ([link](#)).

<sup>2</sup> <https://www.ontario.ca/page/natural-gas-expansion-program>: “The NGEP was created under the *Access to Natural Gas Act, 2018* to help expand access to natural gas to areas of Ontario that currently do not have access to the natural gas distribution system.”

evidence that involves the exploration of non-natural gas alternatives). In denying the First ED Motion in its December 13, 2023 decision, the OEB review panel found that there was no denial of procedural fairness and that the original panel did not make a material and clearly identifiable error.<sup>3</sup>

In now pursuing the Second ED Motion, ED appears to wholly disregard the OEB's repeated and consistent direction within recent NGEP-funded project proceedings that:

- i. The OEB is not making a decision between the use of electric heat pumps instead of natural gas;<sup>4</sup>
- ii. Matters such as potential uptake of consumer energy solutions need to rely on actual consumer and community interest;<sup>5</sup>
- iii. Factors that impact consumer choices between electric heat pumps and natural gas can change over time;<sup>6</sup>
- iv. The case for alternatives to natural gas service should primarily be a marketplace issue;<sup>7</sup>
- v. The approval of NGEP-funded projects does not restrict consumers and communities from obtaining electric heat pumps;<sup>8</sup>
- vi. Enbridge Gas is not guaranteed total cost recovery in the event of revenue shortfalls;<sup>9</sup> and,

- vii. ED's interests with respect to broader climate change issues and the promotion of electric heat pumps extend beyond the scope of NGEF-funded project proceedings.<sup>10</sup>

Enbridge Gas submits that the OEB should dismiss the Second ED Motion without a hearing as it neither raises fundamentally different issues warranting another review nor contributes to a better understanding of the issues that are actually in the scope of proceedings for NGEF-funded projects, and is nothing more than another attempt by ED to further complicate and delay these proceedings and the provision of natural gas service to interested communities pursuant to government policy.

If the OEB decides to hear the Second ED Motion, Enbridge Gas respectfully requests that it be heard and dealt with as soon as possible (i.e., not after the OEB issues decisions on the leave to construct applications, as suggested by ED). This timing consideration is crucial as Enbridge Gas expects delays to project construction starts until review motions and/or appeals are resolved.

Notwithstanding ED's broad climate change-related interests which consist of "efforts to help consumers adopt heat pumps as the home heating option" and "efforts to combat fossil fuel subsidies",<sup>11</sup> there are actual residents and businesses in the impacted communities that are interested in and waiting for natural gas service. An example is the City of Kawartha Lakes which already expressed disappointment when the First ED Motion caused regulatory delays for the Bobcaygeon Project.<sup>12</sup>

Greetings Mayor Murphy and Members of Council,

On September 21, 2023, Enbridge Gas filed a Leave to Construct application with the Ontario Energy Board (OEB) for the Eganville Community Expansion project. As you know, your municipality provided a letter of support for the project, which was included in the application.

Throughout regulatory proceedings, Environmental Defence (ED), has relentlessly implemented tactics to delay natural gas expansion projects, resulting in additional steps and time in the OEB regulatory process. Despite the OEB having denied previous motions submitted by ED, they have recently filed yet another motion as part of a pattern of repeated attempts to introduce evidence related to non-natural gas alternatives within Natural Gas Expansion Program (NGEP) funded project proceedings. This motion not only adds to the duration and complexity of the regulatory process but continues to delay service to customers and communities that have expressed interest in natural gas service.

We believe that consumers should have the ability to choose the type of energy they use for their homes and businesses rather than special interest groups.

Enbridge Gas is at a critical stage in moving this project forward for the 2024 construction season and the ongoing tactics from special interest groups such as ED put projects at risk as they cannot move forward until motions are reviewed and appeals are resolved.

In an effort to bring natural gas service to Eganville in 2024, we ask that you reach out to the OEB and/or Ministry of Energy to deny ED's motion and issue timely approval for your project. We will share our construction schedule pending LTC approval and will continue to engage with customers to help inform them of their decisions to convert to natural gas.

For your reference, I have attached a letter that Enbridge sent to the OEB regarding the motions filed by ED. You are welcome to align your message with the one submitted by Enbridge.

Enbridge Gas remains committed to working with our partners to help reduce red tape and ensure that more homes, businesses, local and Indigenous communities can access reliable, cost-effective energy options they need and want.

We wish to thank you for your ongoing support with the project and hope no major delays from Environment Defence will occur. I look forward to collaborating with you and learning more about your community in the weeks and months ahead.

Best regards,
