**Subject:** Trailers on Lake Clear

Mayor Jennifer Murphy and Bonnechere Valley Councilors,

We are writing this morning to express our objection to the Lake Clear Property Association's request to have Bonnechere Valley Township impose unnecessary bylaws regulating RV's or trailers on Lake Clear.

We have annually purchased a membership in the LCPA since purchasing our property in 1996. Over the years we have appreciated the good work of the association like placing buoy markers on shoals. However at times we have strongly disagreed with the LCPA imposing the agenda of a few members like attempting to impose rules on the cottage owners of Turners Island. Pitting owners against owners and spending money on legal fees without a mandate and exceeding the purpose of the association.

We are very familiar with the trailers identified by the LCPA. Once again this issue is unnecessarily pitting neighbours against neighbours.

The opinion of a few members of the LCPA executive do not represent our views.

We urge you to reject this proposal.
