Re: Recreational Vehicle use at Lake Clear

Dear Mayor Murphy and Municipal Councillors;

We have been cottage owners on Lake Clear for 25 years and are members of the Lake Clear Property Owners Association (LCPOA). We have read the material provided by the LCPOA and support their position on the unregulated use of recreational vehicles (RVs) on waterfront property. We agree that greater control should be placed on the use and placement of RVs along the shoreline of Lake Clear.

As staunch supporters of protecting Lake Clear, we call upon the Bonnechere Valley Township to enact by-laws (and the enforcement of same) to address where RVs may be placed on a lot; the number of RVs permissible on a lot; requirements for servicing; property taxation and market value assessment.

We take great pride in owning property at Lake Clear. Recently retired, we are now able to spend the entire summer and fall seasons at Lake Clear and enjoy all that the lake and the local communities have to offer. The protection of the Lake Clear environment means more to us now than ever before.

Sincerely

Steve & Cheryl Torrance
