Re: RV use on Lake Clear

Dear Mayor Murphy and Municipal Councillors,

We have been property owners on Lake Clear since 2004 and have been permanent residents since 2008. We are very appreciative of beautiful Lake Clear and are very concerned about its water quality. As you are aware, Lake Clear has been designated "at capacity" and you know all that this means. Like many supportive LCPOA members, we too would like the township to create by laws that would ensure that RV's on the lake are subject to the same zoning regulations as we cottage/home owners. (grey and waste water disposal, "set backs" etc.)

We strongly encourage the township to rectify this inequality and environmental threat and enact by-laws similar to those of Frontenac Township to protect Lake Clear.

Sincerely,

Doug and Jean Davies  
229 Wieland Shore Rd.  
RR4 Eganville,
